Other Skills: Adobe Photoshop, Figma, GitHub, MicroSoft Excel, Canva,

INTERNSHIPS

Full Stack Web Development Trainee (ASIA NAVIS INTERNATIONAL CORP. Feb 2025 – June 202)
Completed a 3-months internship at Asia Navis, where I developed their Human Resource Management System to streamline applicant handling. The project involved technologies including JavaScript, HTML, CSS, and React for frontend, PHP for backend, and MySQL (via phpMyAdmin) for database

Makati Internship Program (CITY OF MAKATI, Aug 2024 – Sept 2024)

Participated in the Makati Internship Program for 1 month, where we delivered birthday cards from the Mayor of Makati on a daily basis. This experience helped me develop interpersonal skills and confidence in interacting with different people, including co-workers I had just met..

PROJECTS:

CAPSTONE: Automatic Waste Bin Management System with RFID and Comprehensive Website –
Create a Machine for Automatically Sorting the Paper, Plastic & Metal using Arduino, Sensors and Servos.

OJT PROJECT: Human Resource Management System – Create a Comprehensive Website for Applicant of the Company using ReactJS, Php and MySql.

COURSE PROJECT: Retailing Clothing Website – Develop a Website for a Clothing Line using Php, HTML and CSS.
